Unlock a Sustainable Approach to Manufacturing

NTT DATA

Sustainability is becoming an increasingly high priority for manufacturers. NTT DATA has a long-standing commitment to technology innovation and business strategies that contribute to a more prosperous, sustainable society. This includes providing best practices, IT frameworks and services to support our clients' sustainable manufacturing strategies. While you may understand the importance of sustainability, it can be difficult to know where to start. Our consulting services offer a guided, step-by-step approach to help you achieve your organization's sustainability goals and mandates.

Our innovative strategies and digital solutions are built to support a sustainable society. This includes products and services that use information and communication technology (ICT) to meet sustainable trends head-on and accelerate your transformation goals.

We prioritize investments in six digital focus areas:

1. Data and intelligence
2. Intelligent automation
3. Customer experience
4. Internet of Things
5. IT optimization
6. Cybersecurity

Sustainability means nothing without transparent business practices. With years of experience working to reduce the environmental impact of our own business activities, as well as robust partnerships with other technology leaders and revenue models that turn sustainability into a profit center, we've created a unique and a comprehensive sustainability platform for manufacturers.

Benefits:

- Drive efficiencies through advisory and consultancy services
- Meet regulatory and corporate mandates
- Achieve environmental, social and governance (ESG) goals with digital twin technology
- Help protect the planet with sustainable, circular economy solutions

Unique sustainability solutions, methodologies and expertise from a trusted provider

Our global initiatives aim to achieve and create value in a sustainable environment, economy and society. Based on assessed opportunities and risks, we've identified the following material issues:

- **Environment:** preserving the global environment for future generations through carbon neutral, circular economy and nature conservation initiatives
- **Economy:** achieving growth in ways that help manufacturers support a sustainable society, including co-innovation with industry leaders to adapt and develop new business models, as well as initiatives that create trusted value chains and help shape the future of work
- **Society:** creating a society where everyone can live healthy and happy lives, including programs focused on diversity, equity and inclusion, accessibility and community engagement

As a trusted global innovator, our commitment to sustainability has earned third-party recognition within the technology industry, including:

- Dow Jones Sustainability Index
- FTSE4 Good Index
- FRSE Blossom Japan
- Prime rating by Oekom
- RobecoSAM Sustainability Award Gold Class

NTT DATA endorses the United Nations' Sustainable Development Goals (SDGs). Several of our sustainability accomplishments correlate to these goals:

- City of Las Vegas Smart City (SDG 9, 11, 16 and 17)
- Effective Resource Usage (SDG 12)
- Energy-Saving Data Centers (SDG 7 and 9)
- Zero-Emission Vehicles (SDG 7, 9 and 11)
- Supporting People With Disabilities (SDG 1, 4, 8, 9, 10 and 17)
- Artificial Intelligence-Based Medical Image Diagnosis (SDG 3, 8, 9, 11, 16 and 17)
- Biometric Authentication (SDG 9, 11 and 17)
- The Prince's Trust (SDG 1, 2, 3, 4 and 17)
- Urban Farming (SDG 2, 3, 8, 9, 11, 12 and 17)
- 3D Satellite Imagery (SDG 3, 9, 11, 13 and 17)
- Transparent Batteries (SDG 9)

Read the UN's 2030 Agenda for Sustainable Development to learn more about the goals.

NTT DATA Services is a recognized leader in IT and business services headquartered in Texas. A global division of NTT DATA — a part of NTT Group — we use consulting and deep industry expertise to help clients accelerate and sustain value throughout their digital journeys.
