Self-Assessment of Health

A secure application allows self-assessment and recommends next steps

Test Scheduling and Tracking

App automatically schedules and tracks testing for students

Secure Test Results

Test results are accessible via a secure portal

Dining Hall

Thermal Sensor Check

Sensors perform thermal scan, send data to the Accelerate Smart Platform and initiate specified protocols

NTT DATA

Getting Students Back to Campus

Enabled by the Accelerate Smart Platform

Facilitating a safe return to school using IoT, automation, advanced data analytics and mobile technologies.

Contact Tracing

If an individual tests positive, contact tracing can notify of exposure to help stop the spread

Maintaining Social Distance

Automated alerts programmed into the Accelerate Smart Platform are generated when too many students are in an area

Mask Compliance

The Accelerate Smart Platform sends alerts for mask compliance or safety violations
