10 Case studies

11 Why NTT DATA for AI

Who we are

Your business, backed by our expertise

At our core, we champion teamwork: We support startups, engage with academics, construct innovation labs and upskill our people so you can experience the power of collaboration firsthand.

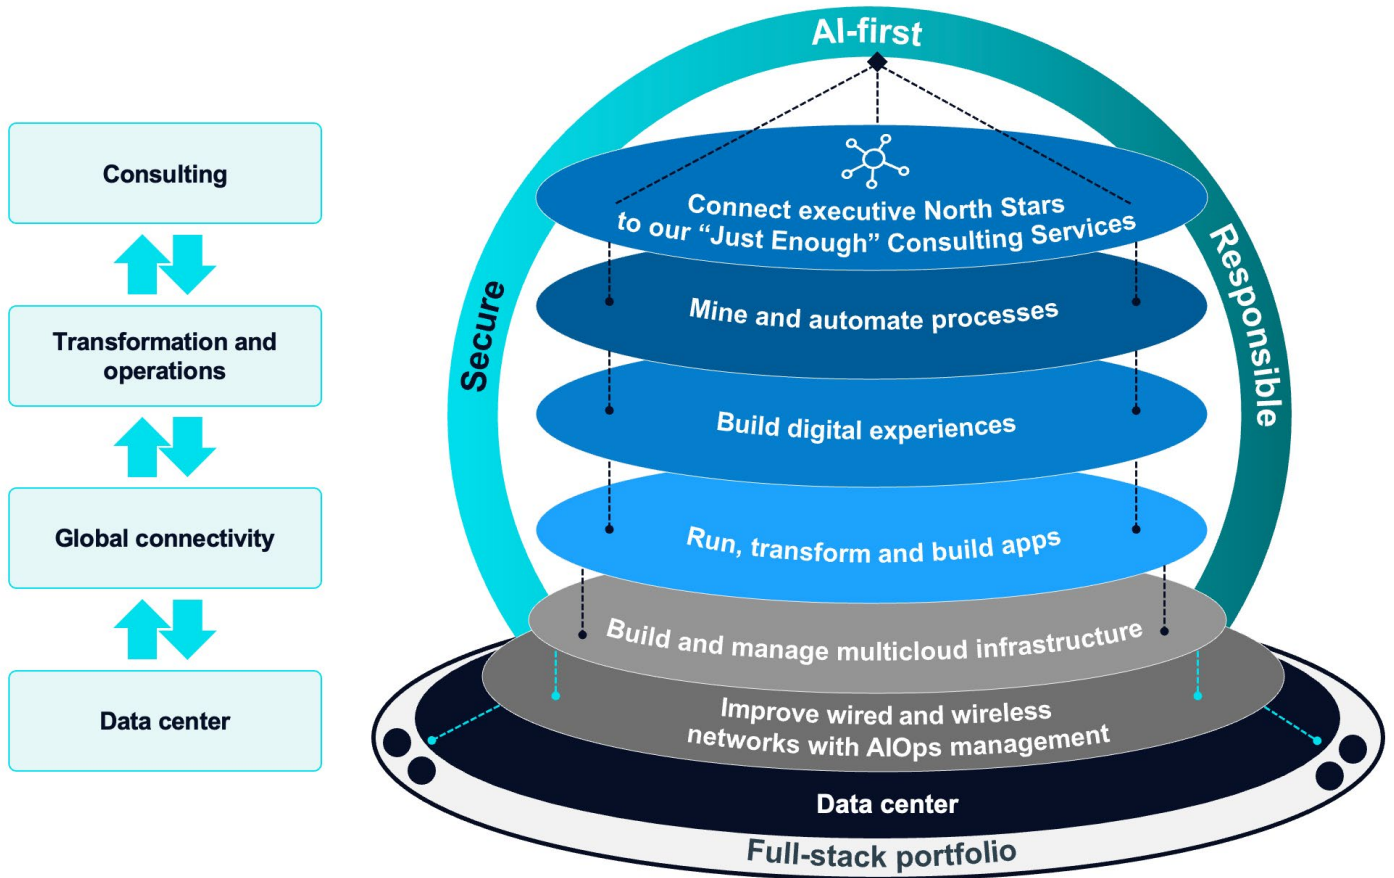

Our tailored, consultative approach addresses clients' priorities across all major industries.

“

NTT DATA's offering includes business and technology consulting, data and artificial intelligence (AI), and industry solutions. As a world leader in digital and AI infrastructure, we help to develop, implement and manage our clients' applications, infrastructure and connectivity.”

The value we deliver

We are the world's only full-stack transformation company, ready to transform your business in the AI era. This means that, under one roof, we provide all the global services you need to achieve your business outcomes:

- We connect your North Star a just-enough advisory approach.
- We mine and automate your cross-organizational processes to reduce costs and boost productivity.
- We build human-centered digital experiences to accelerate growth and unlock new revenue.
- We run, transform and build applications so you can be reliable, nimble and resilient.
- We provide modernization services from edge to core.
- We take an AI-first approach to harness its potential across all our services.

By optimizing the mix of humans and machines, we offer you unmatched capabilities for responsible innovation in the era of AI.

Our services at a glance

Application Services

Full-stack enterprise and application services for optimization, transformation and more.

Business Process Services

An automation-led approach to business processing, anchored in innovation like agentic AI.

Cloud

Clouds above the ordinary: agile, outcome-focused and value-first.

Consulting

Digital reinvention is promising – yet daunting. Not for us.

CX and Digital Products

Accelerate growth.
Unlock new revenue streams.

Cybersecurity

Trusted protection for secure business transformation and operations.

Data and Artificial Intelligence

Turn data into a competitive advantage.

Digital Workplace

Elevate the employee experience and boost productivity. Empower your workforce.

Edge

Empowering operations: intelligent automation and edge computing for business growth.

Enterprise Application Platforms

Assisting organizations to select, purchase, install, configure and manage software.

GenAI

Transform operations and boost productivity with responsible GenAI and agentic AI implementation.

Global Data Centers

Powering global connectivity with AI-ready technology infrastructure.

Network Services

Building tomorrow's networks, today.

Sustainability Services

Solving complex sustainability challenges through positive change.

Technology Solutions

Empowering businesses with innovative digital infrastructure solutions.

The industries we serve

Automotive

Accelerate innovation, scale new product rollouts, and unlock new revenue opportunities. We help you bring advanced automotive solutions to market faster, explore strategic partnerships and deliver cutting-edge mobility experiences globally.

Education and research

Redefine classrooms, elevate the learning experience and drive student success with digital education tools.

Healthcare

Drive positive health outcomes through a connected healthcare ecosystem that is collaborative, personalized and accessible.

Life sciences and pharma

Become a patient-centric, data-driven life sciences company by driving healthcare breakthroughs supported by deep insights and AI-driven automation.

Public sector

Streamline operations and deliver exceptional citizen experiences with our cutting-edge digital technology solutions, consultancy services and global expertise.

Travel, transportation and logistics

From optimizing transportation operations to creating seamless travel experiences, we help you move smarter, faster and further.

Banking

We partner with you to modernize, unlock value and maximize ROI. We help you implement robust risk-management strategies and maintain regulatory compliance, leveraging cutting-edge data analytics, agentic AI and machine learning to enhance customer satisfaction and accelerate growth.

Energy and natural resources

Build customer loyalty, master predictive maintenance, boost operational efficiency and deploy AI at scale with our advanced energy technology solutions.

Insurance

We help insurers accelerate growth and transformation by using emerging technologies to manage risks and meet evolving customer needs.

Manufacturing and consumer packaged goods

Power the future of intelligent manufacturing and fast-track your journey to Industry 4.0 with a human-centric approach to modernizing and transforming your enterprise.

Retail

Step into a new era of retail to deliver seamless, personalized and sustainable shopping experiences through our technology and expertise.

Telco, media and technology

Accelerate digital transformation to enhance customer experiences and create new revenue sources with leading-edge IT services and solutions.

Our strategic partnerships

We collaborate with the world's most transformative technology companies.

Sustainability now, a better future tomorrow

We believe in making a positive impact on society and the environment through technology.

Our sustainability strategy is built on three pillars:

Prosperity Positive

Transform businesses and society for successful growth with 100% sustainable services and solutions across our entire value chain.

Planet Positive

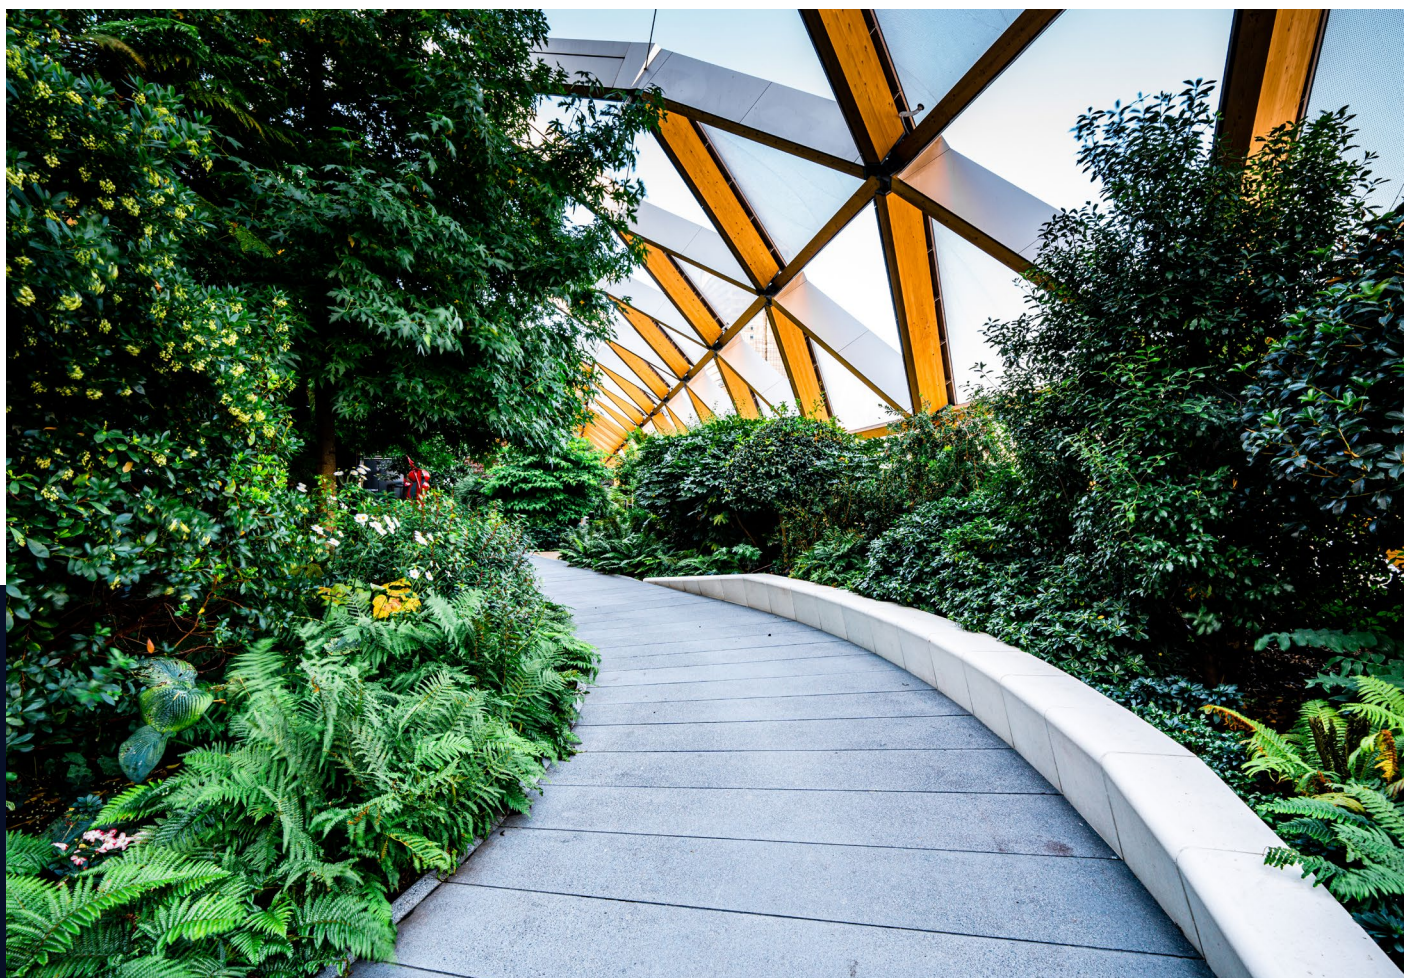

Lead by example to disrupt industries for good with innovative services and solutions to regenerate our planet.

People Positive

Shape a better world for all, applying our digital capabilities to improve livelihoods and contribute to a diverse, equitable and inclusive society.
